

Current Classifieds

Classified & Display Ad Deadlines

The deadline for classified ads for the next issue is July 29. Display ad space must be reserved by July 24.

If your ads are not received by this deadline, they will not be published in the next issue.

Please limit ads to 25-30 words. There is a \$5 charge for ads over 30 words.

Classified Cost

Cotton Electric members are entitled to two free ads per membership per month. Additional ads or ads over 30 words can be purchased for \$5 per ad.

Not a member, but still want to advertise? Ads must be prepaid, so enclose \$5 with your ad to guarantee placement.

Contact Us

Ads can be sent in the mail or be dropped off at Cotton Electric, 226 N. Broadway, Walters, OK 73572. Ads can also be dropped off at the Duncan office, 1101 W. Oak.

Ads can be emailed to classifieds@cottonelectric.com or they can be sent via fax to 580-875-3101. Place an ad by phone by calling 580-875-3351.

580.454.2273 (CARE)

UNCOMFORTABLE?

Does your home have any of these symptoms?

- Rooms that get too hot or too cold?
- High utility bills?
- Thermostat wars with your spouse?
- High humidity in summer?
- House just never seems comfortable? There doesn't seem to be enough airflow?
- Dust buildup within 2 days of dusting?
- Problems with your system since it's been installed?
- Anyone with allergies or asthma?
- AC starts and stops frequently or runs all the time, and house is still not cool?

□ Have been told by other contractors that the problem cannot be fixed?

If you answered <u>YES</u> to any of these questions, we can help!

Pippin Brothers has specialists that can pinpoint and correct these problems and, in many cases, you don't even have to replace your equipment, with the solution usually being easier and costing a lot less than you may think. There is no other contractor in Lawton more qualified than Pippin Brothers at diagnosing and correcting these annoying, inconvenient, unhealthy, comfort-compromising and energywasting concerns. Call us today and let us make your home Feel As Good As It Looks! After all, your home is your largest investment and you and your family deserve to be comfortable - don't you?

"Comfort Without Compromise"

What Should You Do With an Inheritance?

Accepting New Patients

580.875.5622

f you were to inherit a large sum of money, what would you do with it?

The question may not be hypothetical, especially if you are in the millennial, Gen X or Gen Z demographic groups. That's because the baby boomers - often referred to as the richest generation in history

- are poised to transfer some \$30 trillion in assets over the next few decades, according to the consulting firm Accenture.

Of course, this is a "macro" figure, and everyone's situation is different. Furthermore, since baby boomers are living longer, more active lives, the total amount passed on may end up being considerably less than the estimate. Nonetheless, you may well receive a medium-to-large inheritance someday, and when that day arrives, you'll need to decide how best to use your newfound wealth

Your first move may be to do nothing at all. Generally speaking, you have enough time to decide how to handle

the various elements of an inheritance, although if you are inheriting an investment vehicle such as an IRA or a 401(k) plan, you will eventually have to make some decisions about liquidation or withdrawals. (And since these accounts may carry tax obligations, it's a good idea to consult with your tax advisor fairly soon after you receive your inheritance.) But if a big part of your inheritance simply consists of cash parked in a bank account, there's nothing wrong with moving the money into a cash management account at a financial services company until you decide what to do with it.

However, after some time has

passed, you may want to put your inheritance to good use. If you're already working with a financial advisor, you might want to get some guidance on how to use your new assets to strengthen your existing investment strategy. Do you have any gaps in certain areas? Can you use the money to help diversify your holdings? Diversification can't guarantee profits or protect against all losses, but it can help reduce the impact of volatility on your portfolio.

And, of course, if your inheritance is large enough, it may permit you to "max out" on your IRA for years to come, and possibly free you to have even more of your salary deferred into your 401(k) or similar employer-sponsored retirement account. Plus, you could use the money for other long-term goals, such as funding a tax-advantaged 529 college savings plan for your children.

You also might use part of your inheritance to donate to the charitable organizations you support. Due to recent changes in tax laws that caused many people to stop itemizing their deductions, charitable groups are in more need of support than ever.

And last, but certainly not least, take this opportunity to review your goals. Is your inheritance large enough for you to adjust

your planned retirement age? And if that age may indeed change, what about your other plans for retirement? Will you now be free to travel more or pursue other hobbies? Will you even need to modify the way you invest for your new reality, possibly by taking a less aggressive approach? Again, a financial professional can help you answer these questions. Someone thought enough of

you to leave you a valuable inheritance – so use it wisely. This article was written by

Edward Jones for use by your local Edward Jones Financial Advisor.

Is Your Water Safe?

Give Your Back a Break...Stop Adding Salt to Your Softener

Minerals in your water form scale deposits that build up inside your pipes, water heater, shower heads, and other water using equipment like cholesterol in your arteries. These deposits significantly decrease the efficiency of your plumbing systems. Drinking water and icemakers are also negatively affected, as are health quality of water and taste. Hard water is not safe for you, your family or your home.

Benefits of a No-Salt Water Conditioning System:

- Maintain healthy calcium & magnesium levels No sodium added to water

www.PippinBrothers.com

- No waste water vs. up to 10,000 gallons per year with salt softeners
- No environmental discharge of salt or chemicals Clothing will last longer
- Reduces iron staining

Call Today 580-248-7924

- Extends appliance life by 50% or more
 - Descales inside of pipes & water heater
 - Cleaner bodies, clothes, and dishes 1 25% or more reduced detergent use

 - Cleaner more refreshing water

Improves water heater efficiency and thus lowers energy bills

Cleaning with The Current

To clean windows:

Using newspaper to clean windows works better than a cloth for preventing streaks. For even better results, use a vinegar-and-water solution instead of a chemical cleaner.

To eliminate odors:

Crumple balls newspaper and stuff them into smelly shoes. Leave overnight

and discard - and any odors will have disappeared. Place in a suitcase for a couple of weeks to remove stale smells.

To prevent stains:

When using stain-prone products such as paint or shoe polish, place newspaper down before

you start, to prevent soiling your carpet or furniture.

To clean the oven:

Don't waste paper towels on cleaning up any residue in your oven - mop it up with a few sheets of moistened, crumpled newspaper.
