Is Your Water Safe?

Give Your Back a Break...Stop Adding Salt to Your Softener

Minerals in your water form scale deposits that build up inside your pipes, water heater, shower heads, and other water using equipment like cholesterol in your arteries. These deposits significantly decrease the efficiency of your plumbing systems. Drinking water and icemakers are also negatively affected, as are health quality of water and taste. Hard water is not safe for you, your family or your home.

Benefits of an EasyWater No-Salt Water Conditioning System:

- Maintain healthy calcium & magnesium levels
- No sodium added to water
- No waste water vs. up to 10,000 gallons per year with salt softeners
- No environmental discharge of salt or chemicals
- Reduces iron staining
- Extends appliance life by 50% or more
- Descals inside of pipes & water heater
- Cleaner bodies, clothes, and dishes
- 25% or more reduced detergent use
- Clothing will last longer
- Cleaner more refreshing water

□ Improves water heater efficiency and thus lowers energy bills
