Classified & Display Ad Deadlines

The deadline for classified ads for the next issue is May 4. Display ad space must be reserved by April 28.

If your ads are not received by this deadline, they will not be published in the next issue.

Please limit ads to 25-30 words. There is a \$5 charge for ads over 30 words.

Classified Cost

Cotton Electric members are entitled to two free ads *per membership* per month. Additional ads or ads over 30 words can be purchased for \$5 per ad.

Not a member, but still want to advertise? Ads must be prepaid, so enclose \$5 with your ad to guarantee placement.

Contact Us

Ads can be sent in the mail or be dropped off at Cotton Electric, 226 N. Broadway, Walters, OK 73572. Ads can also be dropped off at the Duncan office, 1101 W. Oak.

Ads can be emailed to classifieds@cottonelectric.com or they can be sent via fax to 580-875-3101. Place an ad by phone by calling 580-875-3351.

Is Your Water Safe?

Give Your Back a Break...Stop Adding Salt to Your Softener

Minerals in your water form scale deposits that build up inside your pipes, water heater, shower heads, and other water using equipment like cholesterol in your arteries. These deposits significantly decrease the efficiency of your plumbing systems. Drinking water and icemakers are also negatively affected, as are health quality of water and taste. Hard water is not safe for you, your family or your home.

Benefits of a No-Salt Water Conditioning System:

■ Maintain healthy calcium & magnesium levels

■ No sodium added to water

■ No waste water vs. up to 10,000 gallons per year with salt softeners

■ No environmental discharge of salt or chemicals

■ Reduces iron staining

■ Extends appliance life by 50% or more

■ Descales inside of pipes & water heater

■ Cleaner bodies, clothes, and dishes

■ 25% or more reduced detergent use

■ Clothing will last longer

■ Cleaner more refreshing water

■ Improves water heater efficiency and thus lowers energy bills

Parting Shots

Contractors used a feller buncher recently to address a particularly overgrown wooded area that was causing power quality problems for Cotton Electric members. Many of the trees were dead and leaning toward lines; note the transformer on the right of the photos. The feller buncher made quick work of grasping the trees, cutting them at the base and stacking them to be mulched. The time elapsed in these before and after shots is 21 minutes.
